

iNTRON Top 6 Extraction System

Manual system

DNA & RNA

Patho Gene-spin™ DNA/RNA Extraction Kit (Cat. 17154)

- Extract both DNA/RNA, suitable for a wide range of pathogenic samples
- Maximized DNA/RNA recovery

Genomic DNA

G-spin™ Total DNA Extraction Mini Kit (Cat. 17045)

- Extract DNA from whole blood, cell, tissue, fixed tissue and bacteria
- Isolate DNA within 20 to 30mins
- Include 8 suitable protocols for different samples

RNA Extraction

easy-BLUE™ Total RNA Extraction Kit (Cat. 17061)

- High-quality, intact RNA from many kinds of biological samples
- Easy separation between aqueous and organic phase
- Optimized protocol for each sample

Automatic system

Automated machine

Miracle-AutoXT Automated Nucleic Acid Extraction System (IMC-NC15PLUS)

- DNA / RNA extraction using magnetic bead
- 30 minutes [Fast mode takes 20 minutes]
- High-efficiency, simultaneous processing up to 32 samples

Related product

AutoXT PGS DNA/RNA Extraction Kit (Cat. 17168-48/96)

- Extracts viral total nucleic acid (RNA and DNA) from clinical samples
- Simple steps for extracting DNA/RNA

AutoXT Total gDNA Kit (Cat. 17188-48/96)

- Nucleic Acid Extraction System to purify gDNA from tissue, blood, cell, etc.
- Applicable to a wide variety of samples
